

MiguelGonzálezPérez

Summary

UCM graduate in Computer Science and Software Engineering. Skilled in developing management and programming, likes clean and functional code with proper documentation. I am enthusiastic about the field, eager to learn the latest programming languages, to learn about new technologies and development tools. Working in mobile-based software. Passionate about open source and GNU-Linux systems.

Education history

2005→2013 **Computer Science and Engineering**
Universidad Complutense de Madrid
5-year full time degree.

Carrier history

2012→Present **Freelance**

Working in a team of 3 on Android development.
I am in charge of project management. The 3 members work as developers.

- ★ Implemented an Android app which tracks the cost of calls and automatically calculates the forecasted bill.
- ★ Develop an order management system for Grupo Delgado. Use of PHP, MySQL.
